Jumana Emil Abboud (b. 1971, Palestine-Canada) lives and works in Jerusalem. She uses drawing, video, performance and text to navigate themes of memory, loss, and resilience. Her work consistently reflects a Palestinian cultural landscape in which the struggle for continuity amid the wider political context requires a constant process of metamorphosis and ingenuity.

During her stay, Abboud will expand on her research on the place of water as a source of story, past and present, fable and real. She will follow stories of water across France, tapping into its materiality and value, through visits and exchanges with people, museums, libraries and landscapes in order to translate the teachings surrounding water through the production of visual art in various mediums.
Jimena Croceri (b.1981, Argentina) is a visual artist who uses diverse media including sculpture, sound, and drawing. Her work probes soft spots between gestures, ritual, and performance. She completed a bachelor’s degree in Visual Arts at the National University of Art in Buenos Aires. She also participated in the Art program at Torcuato Di Tella University (2013) and was a scholar at the Center for Artistic Research of Buenos Aires (2014). In 2016 she received a travel grant from the Oxenford collection to conduct research in the Brazilian Amazon and was the artist in residence at FLORA ars+natura in Bogotá, Colombia in 2018.

This year she is the fellow at the exchange program «Coincidence» by Pro Helvetia in Switzerland. Performances and exhibitions include, among others: Raven Row gallery, London, 2019; Ausstellungsraum Klingental, Basel, 2019; Cabaret Voltaire, Zürich, 2019; Botanical Garden, Bern, 2019; Museum of Modern Art, BsAs, 2014 & 2019; U-turn ArteBa, Bs As, 2018; Museum of Contemporary Art, BsAs, 2019; Flora Ars+natura, Bogotá, 2018; Riña Gallery, Guatemala, 2018; Faena Art Center, Buenos Aires, 2015 & 2017; HFBK, Dresden, 2016; Braque Prize, BsAs, 2015; Slyzmuq Gallery, BsAs, 2015 and Argentina’s embassy, Paris, 2012.

For the fellowship, Croceri will develop a research project around the figure of Jonier Marin (1946)– a Colombian artist and heterodox, self-exiled to Europe in the 70s and a resident of Paris since 1989. She is also interested in the performative and the exchange aspect of postal art, seeing it as a disruptive space all through means and gestures that are truly simple. The research goes hand in hand with her own works interest: It is not about monumental, precise or permanent results. These artists explored mail as art objects, from the everyday, collaborative, subjected to chance, and susceptible to noise in this cannel of one-to-one messages. During her residency, the work of Jonier Marin could become a starting point for further research into other artists working in mail art, possibly revealing unknown relations and contributions to this performative practice in Paris.
Christian Nyampeta (b.1981, Rwanda-Netherlands) lives and works in London. He graduated from the MA Industrial Design course at Central Saint Martins College of Art and Design in 2009. He is currently a PhD candidate at the Visual Cultures Department at Goldsmiths, University of London.

Christian Nyampeta's ongoing activities in art, design, and theory include the convening of a roaming programme of exhibitions, screenings and lyrical performances concerned with monuments and translation. Current exhibitions include École du soir at SculptureCenter in New York, A Flower Garden of All Kinds of Loveliness Without Sorrow at the Museum of Contemporary Art GfZK in Leipzig, co-commissioned with Contour Biennale 9 in Mechelen, and co-produced with Kunstenfestivaldesarts, Brussels, Perdu Amsterdam, and Wilfried Lentz Gallery in Rotterdam. Other current exhibitions include at Bamako Encounters Photography Biennale 12, at 5th Ural Industrial Biennial of Contemporary Art, at Tensta konsthall, and recently at IMA Brisbane, Dakar Biennale, at Camden Arts Centre, and at the 11th Gwangju Biennial. Nyampeta runs Radius, an online and occasionally inhabitable radio station and was awarded The Art Prize Future of Europe 2019.

Nyampeta's residency will be organized through three related components. Firstly, a working period in which a scriptorium will support the English translation of the writing of contemporary Rwandan philosopher Isaie Nzeyimana. Secondly, a public programme organised as an evening school for staging dialogues, screenings, and listening sessions. And thirdly, a visiting programme to consult archives, translators, writers, artists, and theorists.

Today, Villa Vassilieff is an exhibition and coworking space supported by Pernod Ricard. Intended to promote the international art scene, Villa Vassilieff is a place of conviviality linked with the Parisian cultural life where international artists and researchers are hosted in residency through the Pernod Ricard Fellowship.

The Pernod Ricard Fellowship is a residency program founded in 2016 as a result of Pernod Ricard's historic commitment to artists. Pernod Ricard is the world second company producing distilled beverages, present in more than 85 countries. Created in 1975 by the merging of Ricard and Pernod, the group is strongly committed to a sustainable development policy and encourages responsible consumption. Pernod Ricard’s ambition is based on three key values that guide its expansion: entrepreneurial spirit, mutual trust and a strong sense of ethics.

Pernod Ricard is a renowned actor in the French and international contemporary art scene. The group is a prime supporter of many art institutions, among which Centre Pompidou, Tate Modern, Guggenheim Bilbao, while its various foundations (Fondation Ricard for Contemporary Art, Martell Foundation, etc.) conduct numerous actions in support of contemporary art and artists. Its motto: “creators of conviviality”!
Bétonsalon is a non-profit organization created in 2003. It manages two sites: Bétonsalon - Centre d’art et de recherche and the Villa Vassilieff, two cultural organizations of the City of Paris, labeled Centre d’art contemporain d’intérêt national by the ministry of Culture.

Villa Vassilieff, located in the Montparnasse district, in the 15th arrondissement of Paris, aims at reviving the history of the place as a former studio by inviting artists and researchers to take a contemporary look at its heritage. The programming of the Villa Vassilieff focuses on little-explored resources and aims at rewriting and diversifying histories of art. With the support of its main donor Pernod Ricard, the Villa Vassilieff proposes the Pernod Ricard Fellowship, a residency program that invites four international artists, researchers or curators every year. The Villa Vassilieff also collaborates with museums, like the Centre Pompidou, and institutions to offer artists research and residency grants.
